

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

KAMES
CAPITAL

Kames High Yield Bond Fund

a sub-fund of Kames Capital ICVC

Sterling Class B - Accumulation shares (ISIN: GB0031425563)

This fund is managed by Kames Capital plc.

Objectives and investment policy

Objective: to provide a combination of capital growth and income.

Policy: invest in a portfolio of predominately: high yield bonds; selected investment grade bonds; and cash. The Fund may hold sterling and other currency denominated bonds hedged back to sterling. The Fund may also invest in deposits, money market instruments, forward transactions and derivative instruments (financial contracts whose value is linked to an underlying asset).

Within the limits set out above, the Fund is not restricted by market sector. It is not constrained by any benchmark or index.

The Fund may use investment techniques to manage risks and costs. These techniques include 'hedging' (using derivatives and other financial

contracts to reduce the risk associated with making investments in other currencies).

Other information

You can buy, sell or exchange the Fund's shares on any business day (see 'Dealing Day' in the Prospectus Definitions for more information).

Income the Fund receives will be reinvested and automatically reflected in the value of your shares.

Risk and reward profile

1	2	3	4	5	6	7
Lower risk / potentially lower rewards			Higher risk / potentially higher rewards			

The risk/reward profile shows the risk of investing in the Fund, based on the rate at which its value has changed in the past. This Fund has the above risk/reward rating because bond prices can be affected by political or economic events, and also changes in exchange rates.

The Fund's category is not guaranteed and may change over time. It is calculated using historical data, which may not be a reliable indication for the future. Category 1 does not mean 'risk free'.

The following risks, which are not, or are not fully, reflected in the risk/reward profile are also relevant to the Fund:

Credit: An issuer of bonds may be unable to make payments due to the Fund (known as a default). The value of bonds may fall as default becomes more likely. Both default and expected default may cause the Fund's value to fall. High yield bonds generally offer higher returns because of their higher default risk and investment grade bonds generally offer lower returns because of their lower default risk.

Liquidity: The Fund's value may fall if bonds become more difficult to trade or value due to market conditions or a lack of supply and demand. This risk increases where the Fund invests in high yield bonds.

Counterparty: Investments such as derivatives are made using financial contracts with third parties. Those third parties may fail to meet their obligations to the Fund due to events beyond our control. The Fund's value could fall because of: (i) loss of monies owed by the counterparty; and/or (ii) the cost of replacement financial contracts.

Other markets: The Fund may invest in countries which have less developed political, economic and legal systems and which provide fewer investor protections. Difficulties in buying, selling, safekeeping or valuing investments in such countries may reduce the value of the Fund.

Concentration risk: The Fund may invest more than 35% of its value in securities issued by a single Government or other Public issuer. Holding a limited number of underlying investments means a change in the value of any one investment has more impact on the Fund's value. This increases potential gain but also potential loss.

Derivatives: The value of derivatives depends on the performance of an underlying asset. Small changes in the price of that asset can cause larger changes in the value of the derivative. This increases potential gain but also potential loss.

Fund charges: The Fund charges its fees against capital, which will increase the amount of income available for distribution to Shareholders, but may constrain capital growth.

Full details of risks are disclosed in the section 'Risk Factors' in the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charges	0.79%
-----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	None
-----------------	------

The entry and exit charges shown are the maximum figures, and in some cases you may pay less. You can find out specific charges which apply to your investment by contacting your financial adviser, distributor, or by contacting us using the details given in the Practical Information section.

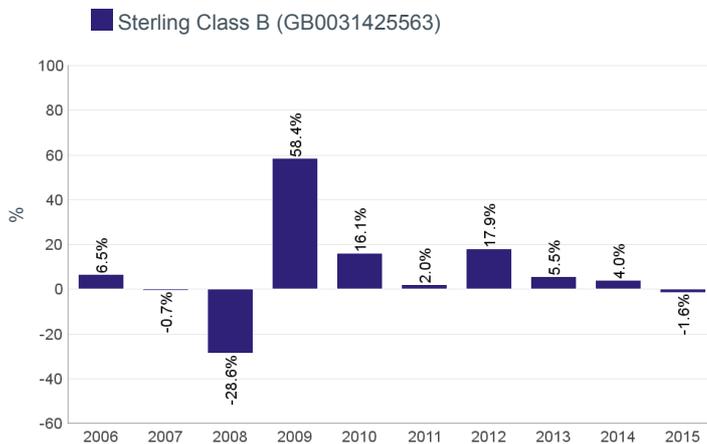

The ongoing charge is based on expenses for the year to 31 December 2015. This figure may vary from year to year. It excludes any portfolio transaction costs (except in the case of an entry/exit charge paid by the Fund when buying and selling shares in another fund).

Ongoing charges are taken from capital rather than income. This may have a material effect on any capital growth of the Fund.

Switches or Conversion: 1st 4 in any calendar year are free, and subject to a charge of 1.5% on each transaction thereafter.

More detailed information on charges can be found in the 'Fees and Expenses' section of the Prospectus.

Past performance

Source: Lipper

Past performance is not a guide to future performance.

Fund launch date: 22 March 2002

Share class launch date: 22 March 2002

Performance is calculated in GBP.

The past performance calculation does not take into account the entry and exit charges but does take into account the ongoing charge, as shown in the 'Charges' section.

Practical information

Kames Capital ICVC is a UCITS scheme structured as an umbrella company with various sub-funds, with segregated liability between sub-funds. This document describes one sub-fund of the UCITS; the Prospectus and the Report and Accounts are prepared for the entire UCITS.

You can exchange your holdings into another share class of the Fund, or another sub-fund of the UCITS, at any time. More detailed information on exchanging can be found in the 'Buying, Redeeming, Switching and Conversion of Shares' section of the Prospectus.

The assets and liabilities of the Fund are segregated by law. Accordingly, the assets of this Fund belong exclusively to it and may not be used to meet the liabilities of, or claims against, any other fund within the Kames Capital ICVC. Any liability incurred on behalf of, or attributable to, the Fund shall be discharged solely out of the assets of the Fund.

The depositary is National Westminster Bank plc.

The prices of shares will be published daily on our website (www.kamescapital.com).

Further information about the Fund and copies of the Prospectus and the latest Annual and Semi-Annual Report and Accounts can be obtained, free of charge, on our website (www.kamescapital.com) or by calling 0800 45 44 22. These documents are available in English.

You should be aware that tax legislation in the UK (where the Fund is authorised) may have an impact on your personal tax position.

Kames Capital plc may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus.
