GLOBAL INVESTORS

# Old Mutual Global Strategic Bond Fund U1 (GBP) Accumulation Shares (GB00BHBX7Y96)

A sub fund of Old Mutual Investment Funds Series II ICVC. Managed by Old Mutual Investment Management Limited

## Objectives and Investment Policy

**Objective:** a total return comprised of income and capital growth by investing in bonds and similar debt investments issued by companies, governments and other public entities located throughout the world.

**Policy:** the Fund will invest in bonds and similar debt investments anywhere in the world. The Fund may invest in investment grade and/or sub-investment grade bonds and similar debt investments. However, the Fund may only invest up to 5% in sub-investment grade bonds and similar investments with a rating of below B, as rated by Standard and Poor's or equivalent rating by similar agencies.

The Fund's base currency is British Pounds. The Fund may gain exposure to additional currencies in order to generate additional returns though changes in the exchange rates.

The Fund will also use derivatives (i.e. financial contracts whose value is linked to the expected price movements of an underlying

investment), with the aim of generating returns and/or reducing the overall costs and risks of the Fund. The Fund may hold a "negative" duration position (aiming to benefit from interest rates rising) through the use of derivatives.

**Recommendation:** the Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

**Treatment of income:** income from investments will be retained within the Fund. This will increase the value of your shares.

**Dealing:** you can buy and sell shares on any working day in London.

## Risk and Reward Profile

The calculated risk and reward category, as shown above, uses a method of calculation derived from EU rules. It is based on the rate at which the returns of the Fund have moved up and down in the past (i.e. volatility) and is not a guide to the future risk and reward category of the Fund. The category shown is not a target or guarantee and may shift over time. Even the lowest category 1 does not mean a risk-free investment. The seven-category scale is nonlinear, for example, 2 is not twice as risky as 1.

Funds in category 4 have in the past shown moderate volatility. With a fund of category 4, you have a moderate risk of losing money but your chance for gains is also moderate.

**Investment risk** - there is no guarantee that the Fund will achieve its objective. A capital loss of some or all of the amount invested may occur.

**Credit risk** - the issuer of a Bond or a similar investment within the Fund may not pay income or repay capital to the Fund when due. Bonds which are rated below investment grade are considered to have a higher risk exposure with respect to meeting their payment obligations.

**Interest rate risk** - investments in bonds are affected by interest rates and inflation trends which may affect the value of the Fund.

**Liquidity risk** - some investments may become hard to value or

sell at a desired time and price. In extreme circumstances this may affect the Fund's ability to meet redemption requests upon demand.

**Currency risk** - the Fund is denominated in British Pounds but holds assets denominated in other currencies. The value of your shares may rise and fall as a result of exchange rate movements between these currencies.

**Derivative risk** - the Fund uses derivatives to generate returns and/or to reduce costs and the overall risk of the Fund. Using derivatives can involve a higher level of risk. A small movement in the price of an underlying investment may result in a disproportionately large movement in the price of the derivative investment. Derivatives also involve counterparty risk where the institutions acting as counterparty to derivatives may not meet its contractual obligations.

**Capital erosion risk** - the Fund takes its charges from the income of the Fund in the first instance. The impact of Fund charges may be material on the value of any income you receive from your investment. There is potential for capital erosion if insufficient income is generated by the Fund to cover these charges.

For a more detailed explanation of risks, please refer to the "Risks" section of the prospectus.

## Charges

These charges are used to pay the costs of running the Fund, including the costs of marketing and distribution. Overall, they reduce the growth of your investment.

### One-off charges taken before or after you invest

Entry charge	None
Exit charge	None

*This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.*

### Charges taken from the Fund over a year

Ongoing charge	0.60%
----------------	-------

### Charges taken from the Fund under specific conditions

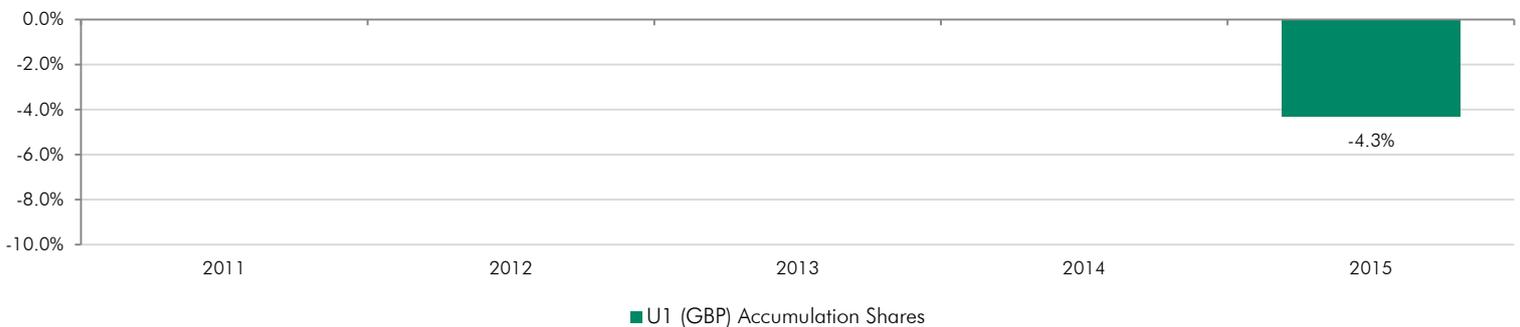

Performance fee	None
-----------------	------

The charges shown are the maximum figures. In some cases you might pay less. You can find out your actual charges from your financial adviser.

The ongoing charges figure is based on the expected total charges. The Fund's annual report for each financial year will include detail on the exact fees and expenses incurred. The ongoing charge includes fixed operating costs. It excludes portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking and may vary from year to year.

You can find out more details about the charges by looking at Schedule 1 of the prospectus.

## Past Performance

Past performance is not a guide to future performance.

The past performance shown does not take into account any entry or exit charges but does take into account the ongoing charge, as shown in the Charges section.

The value of the class is calculated in British Pounds.

The Fund launched on 26 November 1991. This class started to issue shares on 8 April 2014.

## Practical Information
